

# Trade Contractor Outreach Event

## Baltimore Convention Center Capital Improvements

### About the Event

Clark Construction is looking to assemble a team of project partners to provide Capital Improvements at the Baltimore Convention Center.

Join us at this event to gain insight into the project scope and schedule, connect with the Clark team, and learn about our prequalification process. A project site walk will take place immediately after the program.

### Project Details

The Maryland Stadium Authority is an effort to renovate the critical infrastructure (data center, security office, IT Room), bathrooms and employee spaces to modernize the Baltimore Convention Center.

This project has a 30% MBE participation goal, with subgoals of 8% African-American and 11% woman-owned. Only MBEs certified by the Maryland Department of Transportation (MDOT) will count towards the goal. This is also a prevailing wage project.
